

Advanced Skin Perfecting Plumping

- ✓ Plump up fine line and wrinkles
- ✓ Reduce pigmentation
- ✓ Reduce skin imperfections

Topical multi acid gel for face, neck and décolleté with powerful ingredients to plump up fine lines and wrinkles, reduce pigmentation and skin imperfections.

Main features and results

- 42% multi acid complex.
- Ferulic acid has strong antioxidant properties, which is directly involved with its protective role to cellular structures and inhibition of melanogenesis.
- Glycolic acid allows the dead cells to slough off, leaving behind a smoother skin surface with clearer pores and helps stimulate collagen formation.
- Phytic Acid is capable of inactivating tyrosinase, the enzyme which causes hyperpigmentation and is also characterized by significant rejuvenating and lifting effect.
- The succinate anion is involved in the Tricarboxylic Acid (TCA) Cycle and links cellular metabolism, especially ATP formation, to the regulation of cellular function.
